Edburg

DJ · Producer · Label Owner

Edburg is a Zürich-based electronic music artist whose sound moves between deep and progressive house and more experimental electronic forms. He is the founder of Principia Records.

Raised in Frankfurt as the son of a music teacher, Edburg began exploring instruments and genres from an early age. Starting with blues and rock guitar, he discovered electronic music through Frankfurt's emerging techno scene of the late nineties.

His productions have appeared on Moodmusic / Eastern Standard, Glory Hill Studio, Acrylic TV and Principia Records. His debut release on Principia, Briefcase//A, reached #9 on Beatport's Indie Dance Top 100.

As a DJ, Edburg has performed at venues including Hive, Klaus and Kaufleuten in Zürich and Seehaus in Hamburg, alongside appearances at Burning Man.

Edburg is also one half of Red Passport, a collaborative project with Georgian artist Ucha that brings their contrasting musical perspectives into a shared club sound.
